the new community market for clubs from **swapace**

## Like to extend members services online but:

- *Feel intimidated* by the **big** sites and **fee structures**?
- *Need **more service** and **less cost**?*
- *Worried about **safety** and **security**?*

Many clubs and associations feel the same way.

Now you can add online member services **easily, safely** and **for free** at **TheSouthernHighlands.com**— a new site from **SwapAce**, the power behind online community markets.

## What is TheSouthernHighlands.com?

It's a new **community marketplace** where members, clubs and groups can **interact online**. TheSouthernHighlands.com is much more than a place to advertise or trade—it's a **full function online market**.

At **www.TheSouthernHighlands.com** you can enhance your member services without the cost of building and maintaining additional site functionality. You just link to it.

## How is it better?

The online market is dominated by big players like eBay with lots of rules and big fees. Their sites are complex, hard to navigate, impersonal and inflexible. You can't swap or negotiate. They won't let you list your club website or link to it. You can't control the outcome of high pressure auctions.

**TheSouthernHighlands.com** has all the **pieces missing** from the big sites:

- a **unique** market—where members can do far more than sell goods
- a **special** place—where you won't find hundreds of clubs with similar services
- a **safer** place—less likely to attract scammers and spammers
- a **helpful** place—that drives traffic back to your club website, that helps you with setup, hosting, bulk uploading of listings and search engine-based marketing.

## How is it better value?

**www.TheSouthernHighlands.com** is ready for you now—and it's free.

- **No fees** on sale of goods
- **Ads are free** (but you can enhance them for a small fee)
- **Domains are free** (but you can customize them for a small fee)

Any way you choose, **TheSouthernHighlands.com** is **far better value** than the big sites—and the ideal way to get expand member services online.
